COVID-19 Protocols

In an effort to create a safe learning environment for our students and staff, the following practices and protocols will be practiced:

- We will continue to have our buildings cleaned at the end of each day and after events per the recommended CDC guidelines.
- Lunches and recesses will be staggered by classroom to prevent inter-classroom exposure.
- All areas including playground, eating areas, etc., will remain open for staggered use, unless a situation arises that warrants stricter measures.
- We will be intentional about teaching and encouraging proper hygiene during the school day for all students, staff and volunteers.
- Masks will not be required, but will remain optional.
- Desks and seating areas will be spaced apart, and staff will encourage children to practice greater degrees of personal space.
- We will adhere to our current guidelines that students and staff must stay home if they are sick or will be sent home immediately if they have a fever or are showing symptoms of illness.
- If a student has a non-COVID 19 related fever/upper respiratory cough, they must be fever-free for three days before returning to school.
- If a student or staff has been in contact with someone who tests positive for COVID-10, that student or staff may return to school if they are showing no symptoms of illness.*
- If a student or staff tests positive for COVID-19, they must remain at home for 10 days from first symptom and be fever-free for at least three days.*
 - Families will be notified
 - The affected class will be closed for 24 hours for additional cleaning and sanitizing.
 - Students will be provided with study materials during such circumstances.

**Please note that it is the responsibility of families to follow the guidelines set forth by government entities and regulating agencies.*
